- Ability to present to groups of 15-25 people
- Flexibility to travel within the Continental United States
- Position requires travel 60-70% of the time
- Knowledge of Common Core State Standards

- Salary commensurate with experience

Company Description

Eduscape is an innovative developer and provider of professional development, curriculum, and instructional design led by a team of educators. We facilitate the effective integration of technology by teachers in a deliberate manner by aligning learning outcomes to selected standards, including Common Core, STEM and Next Generation Science Standards. We have delivered professional development workshops to nearly 600,000 teachers in over 19 states and Canada. Our expertise extends from Google Apps and Microsoft Office 365 to successful classroom implementations of one-to-one initiatives and other classroom technologies, including designing innovative learning spaces. We also partner with leading technology manufacturers and resellers, as well as learning management system providers, to ensure successful adoption and application of their solutions.

Submit cover letter and resume to info@eduscape.com with a detailed summary of your technology experience.
