EASY UPDATES

Print new signs as procedures change

BACK TO SCHOOL

This school year is beginning differently than any other. Let us help you get off to a safe & successful start.

With many districts making the decision to begin the year remotely, the opportunity to prepare your building for reopening has been extended.

Stay current with signage & decals

Even if you purchased signs and decals already for your building, the eColor+ can help you stay current as procedures are updated over the course of the school year.

Changing traffic patterns, updated maximum occupancy #s, new room openings & closures

By printing on demand, you eliminate wait time and keep your school running smoothly in the face of change.
